Tank Heating Again, bearded dragons come from a desert environment which means they like HOT temperatures. Bearded dragons are popular pet lizards, even for beginners. Find out how to properly care for these sturdy, fascinating-looking reptiles.Â Bearded dragons get their common name from the spines that encircle their necks. These spines usually lie flat. But if a dragon feels threatened, its throat will expand and the spines will stand up. In captivity, however, bearded dragons are generally docile, so owners rarely see their aggressive displays. These animals are active during the day and typically learn to tolerate handling well. Many even enjoy perching on their keepers's™ shoulders. However, male bearded dragons should be housed separately, as they can be territorial. 1:22. [Click Play to Learn More About the Fascinating Bearded Dra...](#)
