Robert D. Fellman Dickens Collection

MS 01_0

Collection

ABSTRACT:

This collection includes books, original books in parts, original letters, illustrations and memorabilia by and related to Charles Dickens, as well as materials by and about Robert Fellman.

BIOGRAPHICAL NOTE:

Robert Fellman was born in Red Lake Falls, Minnesota in 1923. He grew up in Minnesota and graduated from the University of Minnesota with a BS in chemistry. He received a Master's degree from the University of Southern California and did graduate work at the University of London and Stanford. He moved to the Bay Area in 1957 and lived in Palo Alto. He taught chemistry at Foothill College of Los Altos Hills, California, serving for part of his time there as Chair of the Department of Physical Sciences and Mathematics.

Mr. Fellman read Dickens's "The Pickwick Papers" when he was fourteen. He began collecting Dickens books, illustrations and memorabilia in 1963. He founded the Palo Alto Dickens Fellowship in 1975, and was instrumental in establishing other Dickens Fellowship groups in the Bay Area.

Mr. Fellman decided in 1995 to leave his extensive Dickens Collection to Worcester Polytechnic Institute. He had met Joel Brattin, Dickens scholar and WPI professor, years earlier and wanted his collection to remain intact and to be used and appreciated by scholars, students and members of the Dickens Fellowship. Mr. Fellman died in 1996.

SCOPE AND CONTENT:

The largest part of this collection is hundreds of books, including Dickens' letters and novels, biographies, reference books and critical studies of Dickens, the novel and Victorian England. There are first editions and original books in parts for most of Dickens' works. Also included are complete runs of *The Dickensian* and *Dickens Quarterly*. Most of the books and periodicals are not listed in this finding aid but can be found in Gordon Library's catalog.

Some of the other most valuable items are the Guild of Literature and Art Council Attendance Book, letters from and to Dickens, and original art work.

The collection is organized in series.

Series I is comprised of Mr. Fellman's own correspondence, research and notes, biographical material about Mr. Fellman, photographs, and the slides and notes he used for talks about Charles Dickens and his works. There are 250 slides, which have been re-numbered and generally identified. With these are several sets of Mr. Fellman's notes, as well as a recent listing of the 250 slides.

Series II is made up of WPI materials related to the collection. This includes correspondence and exhibits and notes and other materials, including photographs, from the First Annual Dickens Symposium, held at WPI in 1996.

Series III is composed of Autograph Material, including the Guild of Literature and Art Attendance Book, with Charles Dickens's and many of his contemporaries' signatures, and letters to and from Charles Dickens.

Series IV includes books and periodicals. These can be found through WPI's Gordon Library catalog, but some of the first editions and books in their original parts are listed here.

Series V lists the art work that is part of the collection, including paintings, drawings, lithographs and photographs.

Series VI describes the art objects that are part of the collection.

Series VII is made up of Audio-Visual materials. Not all are listed here, but of particular note are original tapes and a recent DVD of Bert Hornback's performances titled "Dickens' World."
