However, there's still a stigma around burnout that causes many people to ignore it. So how do you know if you've slipped from stressed to truly burnt out? The 3 types of burnout (and how to tell which one you're dealing with). Let's start by understanding where burnout comes from. The obvious culprit is our workdays. And in most cases, when people talk about burnout they're referring to professional burnout. However, there are other factors to consider if you're feeling the symptoms of burnout. In her paper, The Future of Burnout, Dr. Maslach defined three separate types of burnout: Absence of fairness undermines or destroys the development of productive relationships with fellow coworkers. You can know when a sense of fairness is being eroded within an organization when you begin to notice the following: When an organization begins to take actions with little concern or input from employees. When short-term financial performance is sought in lieu of building organizational community. Also known as Dr. Burnout, he is an expert in the identification, mitigation, and prevention of physician job-related burnout. Learn more at ClarkGaither.com. 0 0 vote.
