I am proud to join you on this extraordinary occasion and wish you well as you move forward as leaders in our global community. This spring, The Alumni Association Council is proud to present the Distinguished Alumni Award to an alumna who has made an indelible impact upon the local and international community. As the Scientific and Executive Director of the Robarts Research Institute, Marlys Koschinsky is internationally recognized for her innovative research into lipoprotein metabolism and has published prolifically on the results of her research. Criminal Justice is a program valued by students and is one of the most heavily subscribed majors on campus. Public health focuses on promoting, protecting, and improving the physical, psychological, social, and sexual/reproductive health and well-being of populations, communities, and individuals. Public health departments, organizations, and institutions employ a wide range of expertise to promote wellness through research, educational initiatives, surveillance and response to health threats, and policy-making. These measures rely on current findings and research from public health and social sciences. With this in mind, Springer has curated an extensive portfolio of leading publications on global public
