

## The Boys from Boise: Furor, Vice and Folly in an American City

By John G. Gerassi

University of Washington Press. Paperback. Book Condition: New. Paperback. 360 pages. Dimensions: 8.4in. x 5.5in. x 0.8in. Written in 1965 about a same-sex sexual scandal that occurred in 1955 in Boise, Idaho, John Gerassi's classic study depicts both middle America's traditional response to homosexuality and an era in the country's history before the modern gay rights movement really got underway. Because much of what Gerassi wrote about persists in today's struggles over gay and lesbian issues, his book still has much to tell us about how contemporary society reacts to, and misunderstands, homosexuality. --Peter Boag On the morning of November 2, 1955, the people of Boise, Idaho, were stunned by a screaming headline in the Idaho Daily Statesman, THREE BOISE MEN ADMIT SEX CHARGES. Time magazine picked up the story, reporting that a homosexual underworld had long operated in Idaho's state capital city. The Statesman led the hysteria that resulted in dozens of arrests--including some highly placed members of the community--and sentences ranging from probation to life imprisonment. Peter Boag's Foreword places the book in historical perspective, summarizing the popular psychological theories and legal conceptions that helped to shape Gerassi's research. He discusses advances in Idaho's public approach to homosexuality and ways...

In 1955, a manufactured scandal, pushed by the Idaho Daily Statesman and conservative elites, rocked the city of Boise, Idaho with charges of a widespread "homosexual underworld" and a number of convictions of members of the Boise community to sentences ranging from probation to life imprisonment.

A little boy you would take a bullet for, a little boy in whom you search for glimpses of yourself, and hope every day that he will turn out just like you, only better. A little boy who would do anything to make you happy. Now imagine that little boy—your little boy—alone in his bed in the night, eyes wide with fear, afraid to move, a frightening and unfamiliar voice echoing in his head, afraid to call for you. "I think it happens in an indirect but nonetheless powerful way," says Lisa Cosgrove, a clinical psychologist who is an associate professor at the University of Massachusetts, Boston and a fellow at the Center for Ethics at Harvard. In a study of the DSM-5, she found that 69 percent of the task force acknowledged ties to the pharmaceutical industry.
